

Q.S.S. rare

VINHO REGIONAL LISBOA

This wine is a rare blend of three different grape varieties: **Touriga Nacional, Cabernet Sauvignon** and **Syrah**.

The grapes used are harvested from vineyards planted on gentle slopes, with altitudes ranging from 100 to 250 meters, benefiting from excellent sun exposure and a **climate slightly tempered by the Atlantic Ocean**, which is about 35 km from our properties.

Our vineyards' soils are predominantly **clay-limestone**. Cool summer nights and mild winters are crucial for the production of this excellent wine. **6 months aging in French oak barrels.**

Bright garnet color, expressive notes of mulberry and blueberry-type fruits, and slightly spicy. The palate is structured, fresh, and extremely velvety.

TYPE	RED WINE
VOLUME	13,5% VOL.
CAPACITY	0,75L
